

## Pinank Energy introducing new offer for converting existing Power backup systems (Home UPS/Inverters)

Benefits Solar Rooftop solutions for upgrading your existing power backup systems:

1. **Convert your Existing Inverter into Solar Inverter** which reduces the cost of solar power plant installation by approximately **33 Percent**.
2. **Reduce Electricity Bill** by using solar energy. It produces on an average **5 Units per day per KWp** which reduce your electricity bill.
3. **Estimated cost of Upgrading Existing Inverter into Solar Power Plant (SPP):**

S.No	Particulars	Market Price of new SPP setup	Our Offer Price for upgrading Existing setup	Your Savings
1	<b>500 Watt</b> (Single Battery Inverter)	Rs 45,000/-	Rs 29,990/-	<b>Rs 15,010/-</b>
2	<b>1 KWp</b> (Double Battery Inverter)	Rs. 90,000/-	Rs 49,950/-	<b>Rs 40,050/-</b>
3	<b>2 KWp</b> (Four Battery Inverter)	Rs. 1,60,000/-	Rs 95,550/-	<b>Rs 64450/-</b>
4	<b>5 KWp</b> (Eight Battery Inverter)	Rs 3,75,000/-	Rs 2,39,990/-	<b>Rs 1,35,010/-</b>
